## Now open: Pine Tree Camp Summer 2021 registration

Pine Tree Camp announced Jan. 14 that registration is now open for two summer sessions. The sessions, which begin later than usual due to the late Palm Beach County School District's academic year, will take place June 21–July 9 and July 12–30.

The team introduced changes, including offering only [programs for children entering kindergarten or above](#) and potentially offering a bonus week Aug. 2–6. Preschool and FunCamps™ will not take place this year.

Pine Tree Camps will follow the guidance of local health and government officials, and as an accredited American Campus Association camp, Pine Tree Camp will also adhere to the highest standards in safety, programming and staffing, including ACA COVID-19 guidelines. The camp also worked closely with a network of camps that safely operated in 2020 to learn from their operations and update Pine Tree Camp's procedures.

Camp directors said, "We know that this coming summer will be unlike any other, both in new health protocols and importance. There is no doubt that guidelines, restrictions and expert advice will change between now and then. We are dedicated to staying up to date and providing a safe and enriching experience for as many campers as we can. We know kids need camp now more than ever."
